WORK EXPERIENCE

AT&T Wireless – New York City
Assistant Manager
September 2009 - November 2022

- Worked with various departments to ensure the overall high qualities of customer service were met and developed a bigger repeat customer base.

- Created internal tooling using HTML, CSS, Javascript along with Bootstrap to help reduce customer wait time by 25% over 3 months and consistently allowed team members to meet daily goals by 99% margin.

Time Warner – Queens, NY
Customer Service Support
March 2007 - December 2009

- Build a personal Customer Resource Management system using HTML, CSS, Javascript and Bootstrap.

- Efficiently reduce followup times and escalations. Resulting in a 25% increase in production capability and a 50% increase in sales over a period of 2 years.

SKILLS

Worked with several backend technologies and various frameworks. I love learning new skills and technologies. If you don't see it listed here, I'll be happy and eager to take on a challenge.
